

***Kristine Wallace, Dog Services Manager,
Ex-officio Member***

(20 years with Clackamas County Dog Services)

- **What attracted you to Clackamas Dogs Foundation?** *I experience the differences made by the foundation every day...from the dental machine that our veterinarian uses to set dogs up for success to the additional outdoor play yards that help with enrichment and more...*
- **What is your current role on the Board?** *By virtue of my position as dog services manager I hold an ex officio position on the board.*
- **What keeps you here?** *20 years at dog services and seeing the changes and improvements in how the community supports dogs and the additional resources that we are able to provide to the dogs in our shelter and able to provide to the dogs outside of our shelter.*
- **What inspires you?** *The human animal bond. Seeing the positive that dogs bring to people and how they enrich each other's lives.*
- **Where do you see the Foundation in 5 years?** *Building a larger endowment that will enable greater support of existing programs and funding to create new programs to extend help to more dogs in our community.*
